Recreational Co-operative Is Formed To Acquire Cuchara Ski Area

Local business leaders from Cuchara, La Veta and throughout Huerfano County are coming together in an effort to open up recreational opportunities at the Cuchara Ski Area in the near future.

Members of the Cuchara Recreational Co-operative hope to develop a broad range of three season activities at the Ski Mountain and throughout the Cuchara Valley which in turn will help to create an economic boost to the area.

The group is in the process of forming a non-profit corporation to take ownership of the ski area and the infrastructure of buildings, ski lifts and equipment. Talks are underway with the current ownership and the group is optimistic that the area can be acquired very soon.

A survey is being prepared for distribution within 60 days to gather interests and comments from residents and visitors. Information obtained from the survey will help to determine the kinds of activities that can be offered at the ski area and throughout in the Cuchara Valley. Among the new ideas being introduced are educational programs, activities for youth groups and for families.
